

computer studies past papers pdf

Computer science is the theory, experimentation, and engineering that form the basis for the design and use of computers. It involves the study of algorithms that process, store, and communicate digital information. A computer scientist specializes in the theory of computation and the design of computational systems. Its fields can be divided into a variety of theoretical and practical disciplines.

The Atlanta University Publications (AUPs), edited mostly by W.E.B. Du Bois, are highly significant because they represent systematic, social-scientific inquiries into the condition and lives of African Americans a century ago. They are also known as "The Atlanta University Studies." The description posted with each publication below was copied from the information presented on the title page ...
