The financial crisis of 2007–2008, also known as the global financial crisis and the 2008 financial crisis, is considered by many economists to have been the worst financial crisis since the Great Depression of the 1930s.. It began in 2007 with a crisis in the subprime mortgage market in the United States, and developed into a full-blown international banking crisis with the collapse of the ...

X is the "enterprise's" financial performance during a reporting period, which SFAC No. 1 states is what earnings, a primary focus of financial reporting, should represent. 6 The function f represents the accounting system that converts the unobservable X into observable earnings. One implication of this definition is that earnings, and the decision usefulness of earnings, is a ...
