

generative introduction andrew carnie pdf

The hypothesis of generative grammar is that language is a structure of the human mind. The goal of generative grammar is to make a complete model of this inner language (known as i-language). This model could be used to describe all human language and to predict the grammaticality of any given utterance (that is, to predict whether the utterance would sound correct to native speakers of the ...

In generative grammar, a theta role or \hat{I}_θ -role is the formal device for representing syntactic argument structure—the number and type of noun phrases—required syntactically by a particular verb. For example, the verb put requires three arguments (i.e., it is trivalent).. The formal mechanism for implementing a verb's argument structure is codified as theta roles.

Hi, I am Khoshghadamnia MA in Linguistics from Tehran University (Applied, Syntax, Semantics, NLP, Statistical and Contrastive). Thanks for your list of interjections. nice work, but some of the items in the list are not interjections: Ciao (is a foreign work meaning Goodbye used in farewell) it is not an interjection. interjection is not considered a syntactic category per se and it doesn't ...
