### label the endocrine system Flashcards | Quizlet

Page 1. Endocrine System Review. Consists of discrete individual glands that produce and secrete chemical messengers known as hormones. Hormones travel from endocrine organs to their targets via the blood. Target cells are cells that have receptors for specific hormones on them.

### Endocrine System Review - interactivephysiology.com

The endocrine system is a control system of ductless glands that secrete hormones within specific organs. Hormones act as "messengers," and are carried by the bloodstream to different cells in the body, which interpret these messages and act on them.
