How movies are made. A screenwriter writes a script, which is the story of the movie with dialogue and things that the actors will say and do. A producer hires people to work on the movie and gets all of the money that will be needed to pay for the actors and the equipment. Producers usually get the money by borrowing it from a bank or by getting investors to lend money to the movie production.

A gramophone record (or just record) is a type of analog storage medium. It stores recorded music (or other sounds). It was popular during most of the 20th century. Gramophone records are played on a phonograph ("record player").. A gramophone record is a flat disk that is usually made of plastic. The sound is recorded on a very fine line or groove which goes around and around in a spiral from ...
