PLC Programming with RSLogix 5000 - CompTech

A programmable logic controller is a specialized computer used to control machines and processes. It therefore shares common terms with typical PCs like central processing unit, memory, software and communications.

How PLCs Work | PLCdev

Love this sight, i had a couple difficult situations and from the awesome people here i was able to save the day. The thing is early in the morning there are not to many resources available other then this web sight. of course i can always call tech-connect but sometimes i don't have signal to make a phone call and it is easier to post the situation on here to people that have seen the same ...

Your Personal PLC Tutor Site - PLCs.net

Hi ! ControlLogix and Micrologix are PLCs. RSLogix is a family of software used to program PLCs. more details: Hardware ControlLogix: latest generation of PLC from Rockwell Automation (AKA Allen-Bradley). They used tag based addressing, independant communication modules and respect the IEC1131 standard (which define language, datatype, etc .. for all PLC manufacturer)
