Training to promote good behaviour. The science of morality may aim to discover the best ways to motivate and shape individuals. Methods to accomplish this include instilling explicit virtues, building character strengths, and forming mental associations. These generally require some level of practical reason.

In the nineteenth century, India saw the emergence of large factories, machinery, and government regulation of industrial workâ€”three features that define a large-scale industry. The industrialization that began in colonial India catalysed the formation of â€“industrial districtsâ€™™, and the new generation of manufacturing industries and highly skilled services were concentrated in the cities.
