Through the Global Gender Gap Report 2014, the World Economic Forum quantifies the magnitude of gender-based disparities and tracks their progress over time. While no single measure can capture the complete situation, the Global Gender Gap Index presented in this Report seeks to measure one important aspect of gender equality: the relative gaps between women and men across four key areas ...

1. Introduction. The number of antiepileptic drugs (AEDs) approved for the adjunctive treatment of refractory partial-onset seizures (POS) has increased dramatically in the past 2 decades, with the aim of providing better seizure control and improved safety and tolerability profile relative to older AEDs.
