Politics (Greek: Πολιτική , Politik $\tilde{\alpha}$) is a work of political philosophy by Aristotle, a 4th-century BC Greek philosopher.. The end of the Nicomachean Ethics declared that the inquiry into ethics necessarily follows into politics, and the two works are frequently considered to be parts of a larger treatise, or perhaps connected lectures, dealing with the "philosophy of human affairs".

Background. Health-related policy and its implementation is complex. Conceptual models can help show the flow from health-related policy development to health-related policy and program implementation and to health systems and health outcomes. Policy should be understood as more than a national law or health policy that supports a program or intervention.
