Cleft lip and cleft palate are birth defects that occur when a baby's lip or mouth do not form properly during pregnancy. Together, these birth defects commonly are called "craniofacial clefts". The lip forms between the fourth and seventh weeks of pregnancy. As a baby develops during pregnancy ...

Facts about Cleft Lip and Cleft Palate | CDC

Contains the electronic versions of 80 books previously published in hard copy as part of the Country Studies Series by the Federal Research Division. Intended for a general audience, books in the series present a description and analysis of the historical setting and the social, economic, political, and national security systems and institutions of select countries throughout the world.
