A flood myth or deluge myth is a narrative in which a great flood, usually sent by a deity or deities, destroys civilization, often in an act of divine retribution. Parallels are often drawn between the flood waters of these myths and the primaevial waters found in certain creation myths, as the flood waters are described as a measure for the cleansing of humanity, in preparation for rebirth.

4) There is not a single text in the entire corpus of Sumerian or Mesopotamian tablets in the world that tells us the Sumerians (or later inhabitants of Mesopotamia) knew there were more than five planets. This is quite a claim, but is demonstrable through the work of scholars who specialize in cuneiform astronomy.

Edumine provides online courses, short courses and live webcasts in support of professional development and training for the mining industry.

Edumine - Professional Development and Training for Mining

Introduction. Mythology is the most archaic and profound record we have of mankind's essential spirit and nature. As far back as we are able to trace the origins of our species, we find myth and myth-making as the fundamental language through which man relates to life's mystery and fashions meaning from his experiences.
