Housing in Japan includes modern and traditional styles. Two patterns of residences are predominant in contemporary Japan: the single-family detached house and the multiple-unit building, either owned by an individual or corporation and rented as apartments to tenants, or owned by occupants. Additional kinds of housing, especially for unmarried people, include boarding houses (which are ...

History. District heating traces its roots to the hot water-heated baths and greenhouses of the ancient Roman Empire. Usually, a hot water distribution system in Chaudes-Aigues in France is regarded as the first real district heating system. It used geothermal energy to provide heat for about 30 houses and started operation in the 14th century.
